1 Introduction

In This Document

This document provides schema information about the **StarMine MarketPsych Media Sentiment** data tables in Quantitative Analytics.

NOTE

For information about the other Quantitative Analytics tables, refer to the other Database Schema documents posted on the [Quantitative Analytics](#) product page on [MyAccount](#).

The documentation for each table includes these main elements:

- **Vendor Database or License Name** – This element provides the vendor database or license name. Vendor databases generally correspond to vendor licensing options.
- **Table Name: Table Title** – This element provides the table name and title, followed by a description of the table contents.
- **Update Cycle** – This element indicates the frequency of updates from the data vendor. (For specific information about when this update is posted for your use, refer to your update logs. The update log schema description is available in the Database Schema for Quantitative Analytics Core Tables document.)
- **Adjusted** – This element indicates whether the data is stored adjusted, unadjusted, or if adjustment is not applicable (N/A).
- **Indexes, Index Fields** – This element lists the table's index(es) (for example, pkey_CSGCAD) and the index fields. The primary index contains a "pkey_" or "PK_" prefix. Clustered indexes are noted.
- **Field, Type, Nullable, Definition** – This element describes the table's fields, including field names, data types, and whether each field is nullable. The data types in Snowflake have equivalents available. For example, an *int* in SQL Server is a *number* in Snowflake.

Intended Readership

This document is intended for Quantitative Analytics clients licensed to use **StarMine MarketPsych Media Sentiment** data through LSEG. Note that the tables described in this document may be covered by several licenses; your access to the data in these tables is dependent on the licenses you have. Readers should have basic knowledge of Microsoft SQL Server 2016.

Table Name Conventions

In Quantitative Analytics, database tables are grouped by name. Generally, the first few letters of the table name refer to the data vendor or licensing group. For example, tables that begin with **MMS*** are **StarMine MarketPsych Media Sentiment** data tables.

Zero Values and Nulls

Null values are usually recorded as "NULL". Occasionally, a table may contain a value of "-99999" or "-9999"; in these cases, there is no recorded data for that period. (It is null.) If the table contains a "0" value, the data was reported as having a "0" value.

Service and Support

[MyAccount](#) is the LSEG portal that provides a single access point for timesaving support services, along with billing, user management, and information.

Statement of Service

The [Quantitative Analytics Service Description](#) is available on the [Quantitative Analytics](#) product page at MyAccount.

Subscribe to Support Channels

You are encouraged to [subscribe](#) to the following support channels to keep informed of changes to products and data, and to be notified of any service issues or change. Please see the *Alerts and Notifications* section in the *Quantitative Analytics Service Description* available on the [Quantitative Analytics](#) product page at MyAccount for detailed instructions.

- **Change Notifications**
 - **Product Change Notifications (PCNs)** detail new, enhanced, or changed functionality, which may require your action, in products that you use.
 - **Data Notifications (DNs)** alert you to upcoming changes to real-time and historical data across all asset classes that are relevant to you.
 - **RIC Change Events** inform you of planned changes to RICs. RIC is the market level identifier key unique to LSEG used to identify securities.
- **Service Alerts**
Alert you about planned maintenance and unplanned service issues affecting your products and services, and be notified via SMS or email.

Documentation

You can access product documentation on the [Quantitative Analytics](#) product page at MyAccount.

Get Support

For support using Quantitative Analytics, please use one of the following methods:

Online

Access [Get Support](#) either via the blue [Get Support](#) button at the top right of each page or by selecting *Get Support* located under *Help and Support* on the left navigation pane at MyAccount.

From the *Get Support* page, choose *Get Product and Content Support* and then select the appropriate category from the next page. Complete the request making sure to include the following:

- Under Product, select Quantitative Analytics from the dropdown list.
- In the **How can we help you?** text box, include the following information:
 - Content set name (i.e. Worldscope)
 - Date applicable to a content inquiry
 - Table names and relevant fields
 - Security code (i.e. QA-ID, PermID, Sedol, InfoCode, etc.)
 - Script used to generate the output
 - Any other supporting detail

Telephone

Region	Telephone	Options
AMERS	+01 866 427 8390	Option 1 – Product Support Option 2 – Technical Support
EMEA	+44 203 341 1036	
APAC	+65 6403 7436	

Feedback

We invite your comments, corrections, and suggestions about this document: access the [Feedback](#) option under [Get Support](#) at MyAccount. Your feedback helps us continue to improve our user assistance.

Your Personal Information

LSEG is committed to the responsible handling and protection of personal information. We invite you to review our [Privacy Statement](#), which describes how we collect, use, disclose, transfer, and store personal information when needed to provide our services and for our operational and business purposes.

2. Schema Diagram

MMSCmpDaily*		
PK	<u>OrgPermID</u>	bigint
PK	<u>CalcDate</u>	datetime2(3)
	Version	varchar(10)
	Region	char(2)
	SecCtry	char(2)
	Equity	tinyint
	Business	tinyint
	Management	tinyint
	Rank	tinyint

MMSCmpInfoChg*		
PK	<u>OrgPermID</u>	bigint
PK	<u>FileDate</u>	datetime2(3)
	Version	varchar(10)
	Name	varchar(100)
	SecCode	int
	SecId	int
	SecCtry	char(2)
	Region	char(2)
	File	varchar(10)

3. StarMine MarketPsych Media Sentiment Tables

MMSCmpDaily*

These tables contain StarMine MarketPsych Media Sentiment Daily Data. The description applies to:

- MMSCmpDailyAmers - StarMine Daily MMS Americas data
- MMSCmpDailyAsia - StarMine Daily MMS Asia data
- MMSCmpDailyEurope - StarMine Daily MMS Europe data

Update Cycle: Daily

Adjusted: N/A

Indexes	Index Fields
pkey_MMSCmpDaily*	OrgPermID, CalcDate

Field	Type	Nullable	Description
OrgPermID	bigint	N	Organization Perm ID.
CalcDate	datetime2(3)	N	Date the ranks were calculated.
Version	varchar(10)	Y	Model version. An overall build number for the model construction process.
Region	char(2)	Y	Model region. Two letter region code in which model is selected for computation and universe in which assets are ranked against.
SecCtry	char(2)	Y	Country of Quotation. Cross references Sm2Code where type_ = 1 and Sm2Code.Code = SecCtry. See the Database Schema for StarMine Data for details.
Equity	tinyint	Y	Equity Component of MMS regional model. Measures equity and price discussions. (1 – most bearish, 100 – most bullish)
Business	tinyint	Y	Business Component of MMS regional model. Measures discussions on fundamentals, earnings, and analyst ratings. (1 – most bearish, 100 – most bullish)
Management	tinyint	Y	Management Component of MMS regional model. Measures discussions on company management. (1 – most bearish, 100 – most bullish)
Rank	tinyint	Y	Final Regional Rank of MMS regional model. Combines all components. (1 – most bearish, 100 – most bullish)

MMSCmplInfoChg*

This table contains Monthly StarMine MarketPsych Company Info. The description applies to:

- MMSCmplInfoChgAmers - StarMine Monthly MMS Americas Company Info
- MMSCmplInfoChgAsia - StarMine Monthly MMS Asia Company Info
- MMSCmplInfoChgEurope - StarMine Monthly MMS Europe Company Info

Update Cycle: Monthly

Adjusted: N/A

Indexes	Index Fields
pkey_MMSCmplInfoChg*	OrgPermID, FileDate

Field	Type	Nullable	Description
OrgPermID	bigint	N	Organization Perm ID.
FileDate	datetime2(3)	N	File date for company information.
Version	varchar(10)	Y	Model version. An overall build number for the model construction process.
Name	varchar(100)	Y	Company name.
SecCode	int	Y	LSEG SecCode. Cross references security master and mapping tables.
SecId	int	Y	StarMine Security ID.
SecCtry	char(2)	Y	Country of Quotation. Cross references Sm2Code where type_ = 1 and Sm2Code.Code = SecCtry. See the Database Schema for StarMine Data for details.
Region	char(2)	Y	Model region. Two letter region code in which model is selected for computation and universe in which assets are ranked against.
File	varchar(10)	Y	File code. One of 'Amers', 'Asia', 'Europe'. Subscription permission group in which asset belongs to. Global subscribers receive assets in all 3 permission groups.

Licensing Requirements

All tables are covered by the following licenses:

- MarketPsych Media Sentiment Amers
- MarketPsych Media Sentiment Europe
- MarketPsych Media Sentiment Asia
- MarketPsych Media Sentiment Global (all three above)
