1 Introduction

In This Document

This document provides an overview of the schemas, tables, and fields available in LSEG Quantitative Analytics database schema documents.

NOTE

For information about the other Quantitative Analytics tables, refer to the other Database Schema documents posted on the [Quantitative Analytics](#) product page on [MyAccount](#).

The documentation for each table includes these main elements:

- **Table Name: Table Title** – This element provides the table name and title, followed by a description of the table contents.
- **Update Cycle** – This element indicates the frequency of updates from the data vendor. (For specific information about when this update is posted for your use, refer to your update logs. The update log schema description is available in the Database Schema for Quantitative Analytics Core Tables document.)
- **Indexes, Index Fields** – This element lists the table's index(es) (for example, pkey_CSGCAD) and the index fields. The primary index contains a "pkey_" or "PK_" prefix. Clustered indexes are noted.
- **Field, Type, Nullable, Definition** – This element describes the table's fields, including field names, data types, and whether each field is nullable. The data types in Snowflake have equivalents available. For example, an *int* in SQL Server is a *number* in Snowflake.

Intended Readership

This document is intended for LSEG Quantitative Analytics clients. Readers should have basic knowledge of Microsoft SQL Server 2016.

Table Name Conventions

LSEG Quantitative Analytics database tables are grouped by name. Generally, the first few letters of the table name refer to the data vendor or licensing group.

Zero Values and Nulls

Null values are usually recorded as "NULL". If the table contains a "0" value, the data was reported as having a "0" value.

Service and Support

[MyAccount](#) is the LSEG portal that provides a single access point for timesaving support services, along with billing, user management, and information.

Statement of Service

The [Quantitative Analytics Service Description](#) is available on the [Quantitative Analytics](#) product page at MyAccount.

Subscribe to Support Channels

You are encouraged to [subscribe](#) to the following support channels to keep informed of changes to products and data, and to be notified of any service issues or change. Please see the *Alerts and Notifications* section in the *Quantitative Analytics Service Description*, available on the [Quantitative Analytics](#) product page at MyAccount for detailed instructions.

– Change Notifications

- **Product Change Notifications (PCNs)** detail new, enhanced, or changed functionality, which may require your action, in products that you use.
- **Data Notifications (DNs)** alert you to upcoming changes to real-time and historical data across all asset classes that are relevant to you.
- **RIC Change Events** inform you of planned changes to RICs. RIC is the market level identifier key unique to LSEG used to identify securities.

– Service Alerts

Alert you about planned maintenance and unplanned service issues affecting your products and services, and be notified via SMS or email.

Documentation

You can access product documentation on the [Quantitative Analytics](#) product page at MyAccount.

Get Support

For support using Quantitative Analytics, please use one of the following methods:

Online

Access [Get Support](#) either via the blue **Get Support** button at the top right of each page or by selecting *Get Support* located under *Help and Support* on the left navigation pane at MyAccount.

From the *Get Support* page, choose *Get Product and Content Support* and then select the appropriate category from the next page. Complete the request making sure to include the following:

- Under Product, select Quantitative Analytics from the dropdown list.
- In the **How can we help you?** text box, include the following information:
 - Content set name (i.e. Worldscope)
 - Date applicable to a content inquiry
 - Table names and relevant fields
 - Security code (i.e. QA-ID, PermID, Sedol, InfoCode, etc.)
 - Script used to generate the output
 - Any other supporting detail

Telephone

Region	Telephone	Options
AMERS	+01 866 427 8390	Option 1 – Product Support Option 2 – Technical Support
EMEA	+44 203 341 1036	
APAC	+65 6403 7436	

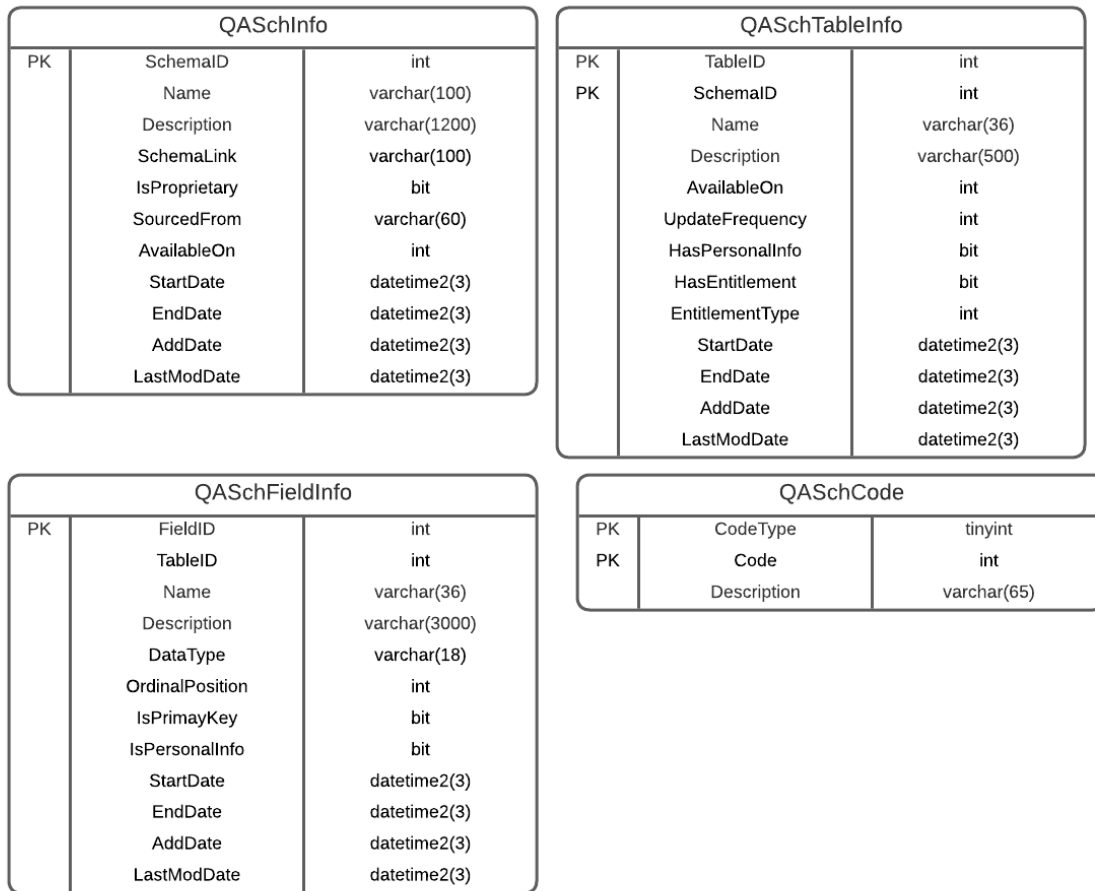

Feedback

We invite your comments, corrections, and suggestions about this document: access the [Feedback](#) option under [Get Support](#) at MyAccount. Your feedback helps us continue to improve our user assistance.

Your Personal Information

LSEG is committed to the responsible handling and protection of personal information. We invite you to review our [Privacy Statement](#), which describes how we collect, use, disclose, transfer, and store personal information when needed to provide our services and for our operational and business purposes.

2. Schema Diagram

3. Quantitative Analytics Schema Catalog Tables

QASchInfo

This table provides the information about the schemas available in the Quantitative Analytics database.

Update Cycle: As needed

Indexes		Index Fields	
PK_QASchInfo (clustered)		SchemaId	
Field	Type	Nullable	Description
SchemaId	int	No	Unique Identifier for the Schema Record.
Name	varchar(100)	Yes	Title of the Schema Document.
Description	varchar(1200)	Yes	Description of the Schema.
SchemaLink	varchar(100)	Yes	URL for the Schema Document.
IsProprietary	bit	Yes	Identifies if the schema is an LSEG offering.
SourcedFrom	varchar(60)	Yes	Product the data is being updated from.
AvailableOn	int	Yes	Platform(s) the offering is available on, cross-reference QASchCode where CodeType = 1.
StartDate	datetime2(3)	Yes	The date the Schema became available on Quantitative Analytics.
EndDate	datetime2(3)	Yes	The date the Schema became unavailable on Quantitative Analytics.
AddDate	datetime2(3)	Yes	The date the Schema was added to the Quantitative Analytics Schema Catalog.
LastModDate	datetime2(3)	Yes	The date the Schema Document was last modified.

QASchTableInfo

This table provides the information about tables available in the Quantitative Analytics database schemas.

Update Cycle: As needed

Indexes		Index Fields	
PK_QASchTableInfo (clustered)		TableID, SchemaId	
Field	Type	Nullable	Description
TableId	int	No	Unique Identifier for a Table Record.
SchemaId	int	No	Unique Identifier for the Schema Record.
Name	varchar(36)	Yes	Name of the Table.
Description	varchar(500)	Yes	Description of the Table.
AvailableOn	int	Yes	Platform(s) the offering is available on, cross-reference QASchCode where CodeType = 1.
UpdateFrequency	int	Yes	The update schedule for the Table, cross-reference QASchCode where CodeType = 2.
HasPersonalInfo	bit	Yes	Identifies if the Table has personal information.
HasEntitlement	bit	Yes	Identifies if the Table has Entitlements.
EntitlementType	int	Yes	The type of Entitlements in the Table, cross-reference QASchCode where CodeType = 3.

Field	Type	Nullable	Description
StartDate	datetime2(3)	Yes	The date the Table became available on Quantitative Analytics.
EndDate	datetime2(3)	Yes	The date the Table became unavailable on Quantitative Analytics.
AddDate	datetime2(3)	Yes	The date the Table was added to the Quantitative Analytics Schema Catalog.
LastModDate	datetime2(3)	Yes	The date the Table record was last modified in the Quantitative Analytics Schema Catalog.

QASchFieldInfo

This table provides the information about fields available in the Quantitative Analytics database tables.

Update Cycle: As needed

Indexes	Index Fields
PK_QASchFieldInfo (clustered)	FieldId

Field	Type	Nullable	Description
FieldId	int	No	Unique Identifier for a Field Record.
TableId	int	No	Unique Identifier for a Table Record.
Name	varchar(36)	Yes	Name of the field.
Description	varchar(3000)	Yes	Description of the Field.
DataType	varchar(18)	Yes	Data type of the Field.
OrdinalPosition	int	Yes	The order in which the Field appears in the Table.
IsPrimayKey	bit	Yes	Identifies if the Field is included in the Primary Key for the Table.
IsPersonallInfo	bit	Yes	Identifies if the Field contains personal information.
StartDate	datetime2(3)	Yes	The date the Field became available on Quantitative Analytics.
EndDate	datetime2(3)	Yes	The date the Field became unavailable on Quantitative Analytics.
AddDate	datetime2(3)	Yes	The date the Field was added to the Quantitative Analytics Schema Catalog.
LastModDate	datetime2(3)	Yes	The date the Field record was last modified in the Quantitative Analytics Schema Catalog.

QASchCode

The QASchCode table contains descriptions for different encoded fields used throughout the Quantitative Analytics schema catalog tables.

Update Cycle: As needed

Indexes	Index Fields
PD_QASchCode (clustered)	CodeType, Code

Field	Type	Nullable	Description
CodeType	tinyint	No	The type of code, full list available under CodeType = 0.
Code	int	No	The coded value.
Description	varchar(65)	Yes	The full description of the coded value.
